For the safety of our staff, exhibitors and guests. Beasley/FLHS will be following guidelines set by the CDC for our show. We will be watching closely as we get closer to opening day and adjust accordingly. In addition, we are having the building sanitized by a professional company that disinfects and sanitizes with the latest revolutionary system available. "Sanitize 360", which is an electrostatic sprayer and is 100% safe and sanitizes 3x better than any traditional cleaning equipment or service.

First Right of Refusals are available for all the sponsorship categories until October 8th, 2021 for January 7th-9th 2022 show. We can't hold the one sale price just the category for 30 days.
